Alke in No Particular.

In a recent lecture Professor Agazziz makes the following remarks, which, coming from a pure scientist, may carry more weight than if uttered by a politicism: "I have pointed out over a hundred specific differences between the bonal and nervons systems of the white man and the negro. Indeed, their frames are alike in no particular. There is no bone in the negro's body which is relatively the same shape, size, articulation, or chemically of the same composition as that of the white man. The negro's bones contain a far greater proportion of as that of the white man. The negro's bones contain a far greater proportion of calcarcous saits than those of the white man. Even the negro's blood is chemically a very different fluid from that which courses in the veins of the white man. The whole physical organization of the negro differs quite as much from the white man's as it does from that of the chimpanzes—that is, in his bones, muscles, nerves and fibres the chimpanzes has not much further to progress to

muscles, nerves and fibres the chimpan-zee has not much further to progress to become a white man. This fact science inexorably demonstrates.

"Climate has no more to do with the difference between the white man and the negro than it has with that between the negro and chimpanzee, or it has be-tween the horse and the ass, or the eagle and the owl. Each is a distinct and sertween the horse and the ass, or the eagle and the owl. Each is a distinct and separate creation. The negro and the white man were created as specifically different as the owl and the eagle. They were designed to fill different places in the system of nature. The negro is no more a negro by accident or misfortune than the negro by accident of missortune than the owl is the kind of bird he is by accident or misfortune. The negro is no more the white man's brother than the owl is a white man's crother than the owl is a sister of the eagle, or the ass the brother of the horse. How stupendous and yet how simple is the doctrine that the Al-mighty maker of the universe has created different species of men, just as he has different species of the lower animals, to fill different places and offices in the grand machinery of nature.',

A St. Louis lady, whose foot had been pressed in a street car by a gentleman, thought she would make an axample of him. She returned the presure, looked languishing, and all that sort of thing, and when she alighted, tacitly invited him to follow. Ariving at her home, she invited him in, and he, accepting, was brought face to face with her huswas brought face to face with her Aus-band. She requested the latter gentle-man to "wade into" the former, and detailed the circumstances of the affair. The husband kicked him out of his house, and then turned about and beat his wife for inviting such familiarites.

IT will be a surprise to know that Washington Irvin was a confessed orchard Washington Irvin was a confessed orchard thief. Once, when picking up an apple under a tree in his own orchard he was accosted by an urchin of the neighborhood, who, not recognizing him as the proprietor, offered to show him a tree where he could "get some better apples than those. But," said the boy, "we must take care the old man doesn't see us." "I went with him," said Irving, "and we stole a dozen of my own apples." and we stole a dozen of my own apples.

A sovet insurance system has been A Novel insurance system has been introduced in London. A company with a capital of £1,000,000 has been formed, under the name of the Railway Passengers' Luggage Insurance and Baggage Delivery Company. Tickets of insurance are granted for luggage upon the same principle as that adopted by accident insurance companies in this country, and issued at every station, irountry, and issued at every station, ircountry, and issued at every station, ir-respective of distance.

THE Science of Health traces the remarkable prevalence of infant mortality in New York to the use of impropor arti-ficial nourishment. Nearly half the children born during the past year in that city, it says, will probably die in infancy, owing to the neglect of sanitary measures and sound principles of hygiene.

A MINNESOTA representative of Congress telegraphed to a friend: "Whiskey bill killed, ayes 49," It was received, "Whiskey bill killed, aged 49." It is said several women whose husbands bear the cognomen of William, were in costernation to know if their legal lords had passed in their checks.

A Courrey youth who desired to know how to become rich, sent a quarter in answer to an advertisement, and received the following valuable receipt: "Increase your receipts and decrease your expenditures. Work 18 hours a day, and live on hards. and live on hash and oatmeal gruel."

PRESIDENTIAL TICKET.—The Presiden-tial ticket makers are already at work in the East. We see in an Eastern exchange the following ticket put forward for 1876: President, Charles Sumner; Vice-President, Alexander H. Stephens.

A Mississippi Sheriff makes an un-common demand upon public credulity, asserting that both he and his wife were chloroformed by burglars and \$7,000 carried off from his house. The money

was public funds, of course. GRACE GREENWOOD is a beautiful wo-

Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unering certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, notes like the rustling of leaves or rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a distinct to form new acquaintances, a disposition to shun society, loss of memory, pimples and various cruptions about the face, hectic finishes, furred tongue, fortid breath, coughs, consumption, night sweats, monomanis and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating disease, which never fails of effecting a quick and radical cure.

Cured at Home. Seminal Weakness.
